

Plastic air duct and fitting systems

Description

Plastic air ducts and fittings systems for supply and exhaust ventilation of premises. The system is quick, easy and clean, assembled without sealants or fixation, can be installed and used in any climate, reducing operating costs.

Made from plastic.

Sizes: rectangular 110x55, 220x55 and 220x90 mm, round Ø100, Ø125 and Ø150 mm.

Duct lengths from 500 to 1500 mm.

Technical specifications

System	Extraction performance	Temperature range
110x55 / Ø100 mm	Up to 250 m ³ /h	-5°C ... +60°C
220x55 / Ø125 mm	Up to 600 m ³ /h	-5°C ... +60°C
220x90 / Ø150 mm	Up to 900 m ³ /h	-5°C ... +60°C

Pressure drop, straight duct
