

SIKU AZ SERIES

IP24

Innovative, low-noise and energy-saving axial fan in an attractive design for a new dimension of comfort in sanitary areas, shower rooms, kitchens and other living areas.

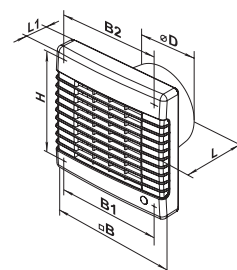

PRODUCT DESCRIPTION

- suitable for wall or ceiling mounting
- compatible with 100, 125 or 150 mm air ducts
- Casing and impeller made of high-quality and durable UV-resistant plastic
- the fan is equipped with a thermal actuator that provides smooth opening and closing of the automatic louvre shutters to prevent back draft (Thermoswitch, opens after approx. 30 seconds of operation)
- low-noise 7-blade propeller
- maintenance-free continuous operation
- including overheating protection
- simple assembly (screws)
