

TELESTEPS

No.1 in telescopic work tools

PRIME LINE

A stronger and safer leaning ladder.

ACCESS MADE SAFE

The most powerful telescopic ladder yet.

Innovation runs in our veins and every time we develop a new product or further develop our existing products, we put safety first. During the last 25 years we have gathered a lot of experience and expertise. When we developed the Prime Line we took everything we have learned and put into this access tool.

AS GOOD AS IT GETS

With Prime Line you will get an extremely practical ladder that is easy to use and a pleasure to work with. We are the first and only ladder company in the world to develop level rungs, our 80 mm wide and level rungs will minimize slipping and reduce fatigue making it more comfortable when working on a ladder for longer periods of time.

Due to its compact size Prime Line is both easy to transport in almost any vehicle and just as easy to bring to any working area no matter if it is a tight space or if you need an elevator to get there. Once there you can easily adjust the height of the ladder to perfectly fit your needs.

SAFETY FEATURES

We did not just build a great, extremely practical ladder we also made it safe. Prime was the first telescopic ladder with our patented triangular tube design. The triangular shape is naturally making the ladder more twist resistant and stronger than ever before. But that is not all, Prime Line has a lot of innovating details making it as safe as possible. To name a few the angled rubber feet makes sure you always have maximum surface contact, the red safety tabs make it easy to ensure every rung is locked before you use the ladder and the rubber tops prevents the ladder from sliding and at the same time prevents wall damages.

With Prime we took everything we know about designing quality ladders and embarked on a new era. This is where safety, quality and design meets.

IT'S ALL IN THE DETAILS

A ladder is a ladder they say. But we know that it is the small details that makes the big difference.

RUBBER TOP SECTION

Works individually on uneven surfaces. Avoids sliding and damaging walls.

ADJUSTABLE HEIGHT

Extend only to your desired height.

ERGONOMIC

Wide and level rungs to minimize slipping and reduce fatigue.

SAFER RUNGS

Rungs with grooved channels to disperse dirt.

TRIANGULAR DESIGN

Twist and flex resistant by nature.

SLOW CLOSE SYSTEM

Controlled closing to avoid pinching fingers.

SAFE LOCKING

Red indicator tabs to ensure your safety every time.

SMART & SAFE UNLOCKING

2 push buttons for closing the ladder.
Autostep® - Automatic unlocking system when closing the ladder.

ANGLED RUBBER FEET

Maximum Surface Contact to avoid slipping.

CHOOSE THE RIGHT ONE

Our Prime Line is available in four different sizes.

PRIME LINE 2,6 M

Art. No.	72226-541
No. of treads	8
Tread width	40 mm
Working height	3,4 m
Length, extended	2,6 m
Length, closed	0,72 m
Width	0,45 m
Weight	8,0 kg

PRIME LINE 3,0 M

Art. No.	72230-581
No. of treads	9
Tread width	80 mm
Working height	3,8 m
Length, extended	3,0 m
Length, closed	0,76 m
Width	0,47 m
Weight	10,2 kg

PRIME LINE 3,5 M S

Art. No.	72235-781
No. of treads	11
Tread width	80 mm
Working height	4,3 m
Length, extended	3,5 m
Length, closed	0,87 m
Width	0,55 m
Weight	15,2 kg

PRIME LINE 3,5 M SB

Art. No.	72235-681
No. of treads	11
Tread width	80 mm
Working height	4,3 m
Length, extended	3,5 m
Length, closed	0,87 m
Width	0,86 m
Weight	14,7 kg

PRIME LINE 4,1 M S

Art. No.	72241-871
No. of treads	13
Tread width	80 mm
Working height	4,9 m
Length, extended	4,1 m
Length, closed	0,93 m
Width	0,56 m
Weight	17,4 kg

PRIME LINE 4,1 M SB

Art. No.	72241-681
No. of treads	13
Tread width	80 mm
Working height	4,9 m
Length, extended	4,1 m
Length, closed	0,94 m
Width	0,9 m
Weight	16,7 kg

ACCESSORIES

Our accessories makes your everyday work a bit easier.

To further improve our products and personalize them to your specific needs we have a number of accessories to choose from.

SAFETY FEET

A ladder must always be level to be safe to use. No matter where you're putting your ladder, you'll have full contact with the ground when you use our safety feet.

Art. No. 9190-101

GROUND SPIKES

The base doesn't matter - snow, mud or dirt. Better grip is always close at hand with our Ground Spikes.

Art. No. 9205-101

WALL MOUNT

The perfect wall mount to store and keep your Telescopis ladder safe. With Telescopis stylish wall mount, you can be sure to find your ladder at the same place each time – without taking up space.

Art. No. 9195-101

TOOL TRAY

This small but handy accessory allows you to place tools, screws, electrical instruments and other equipment's, on a practical tray while you are working.

Art. No. 9202-101

CARRY BAG

While using our practical Carry Bag for your Prime ladder, you will have both hands free and you will be able to carry your tools or equipment at the same time.

Art. No. 9195-101

MAINTENANCE KIT

To even extend the functionality and secure the safety of your ladder we have created a maintenance kit including a cleaning sponge and a microfiber towel.

Art. No. 9205-101

SPARE PARTS

Our high quality makes the products last a long time. Very long time. This might causes parts to wear out and sometimes have to be replaced. Read more at our website [telesteps.com](https://www.telesteps.com).

Many years ago we created an icon in the world of ladders and today we are recognized as the world leader in telescopic work tools. With our R&D and world class production based in Sweden, our brand and products are renowned for its quality and design by our users worldwide, ensuring we always put safety and quality first.
